*January 1, 2007*

**Happy New Year!!! Hope your holidays were enjoyable by you, friends and families!**

**As many of you are already aware, the front gate to the property now closes automatically for safety purposes. All you will need to do is drive up to the entrance and the gates will open automatically. We want to protect our equine companions—if one were to get loose, we can not risk them getting on to the road.**

**We will have a brand new drop-box located in the Welcome Center/office very soon, however, for the time being please bring board payment checks to Judy, Phil, Jennifer or Linda. As always, please include your horse's name in the memo section of all checks.**

**If you have used syringes or syringe needles please bring them to the office/welcome center for us to properly dispose of them.**

**As more building progress is still in affect we ask for your continued patience. Think of how lucky all of us are to be in such a beautiful place as well as for our equine friends.**

**We are grateful for your feedback and watchful eye, but ask that you speak directly with Phil, Jennifer or Linda with any concerns or questions, rather than writing notes. This will allow us to address issues more quickly and efficiently.**

**Wear n' Tear will still be dropping-off and picking-up blankets every Tuesday early afternoon from the same location near our newly remodeled viewing-room. Items should be clearly tagged with farm and owners names with cleaning/repairing instructions.**

**If you request a special service from the farm such as body-clipping your horse, please speak with Phil, Jennifer or Linda to arrange. (Body clipping is \$125).**

**We have only a few more medicine boxes available for sale. If interested in purchasing (\$115/each), please talk with Phil or Jennifer. We can arrange to have them properly installed for you at your request at no additional charge.**

**We continue to have a lot of new boarders and horses on the property. Please say hello to the new human and horse faces when you see them about the property!**
